

Setting up to use AdiiRC for the First Time.

You will need to choose a username eg. "JohnC2018"

You will need a Nick name, this can be your username or something else eg "Guest123"

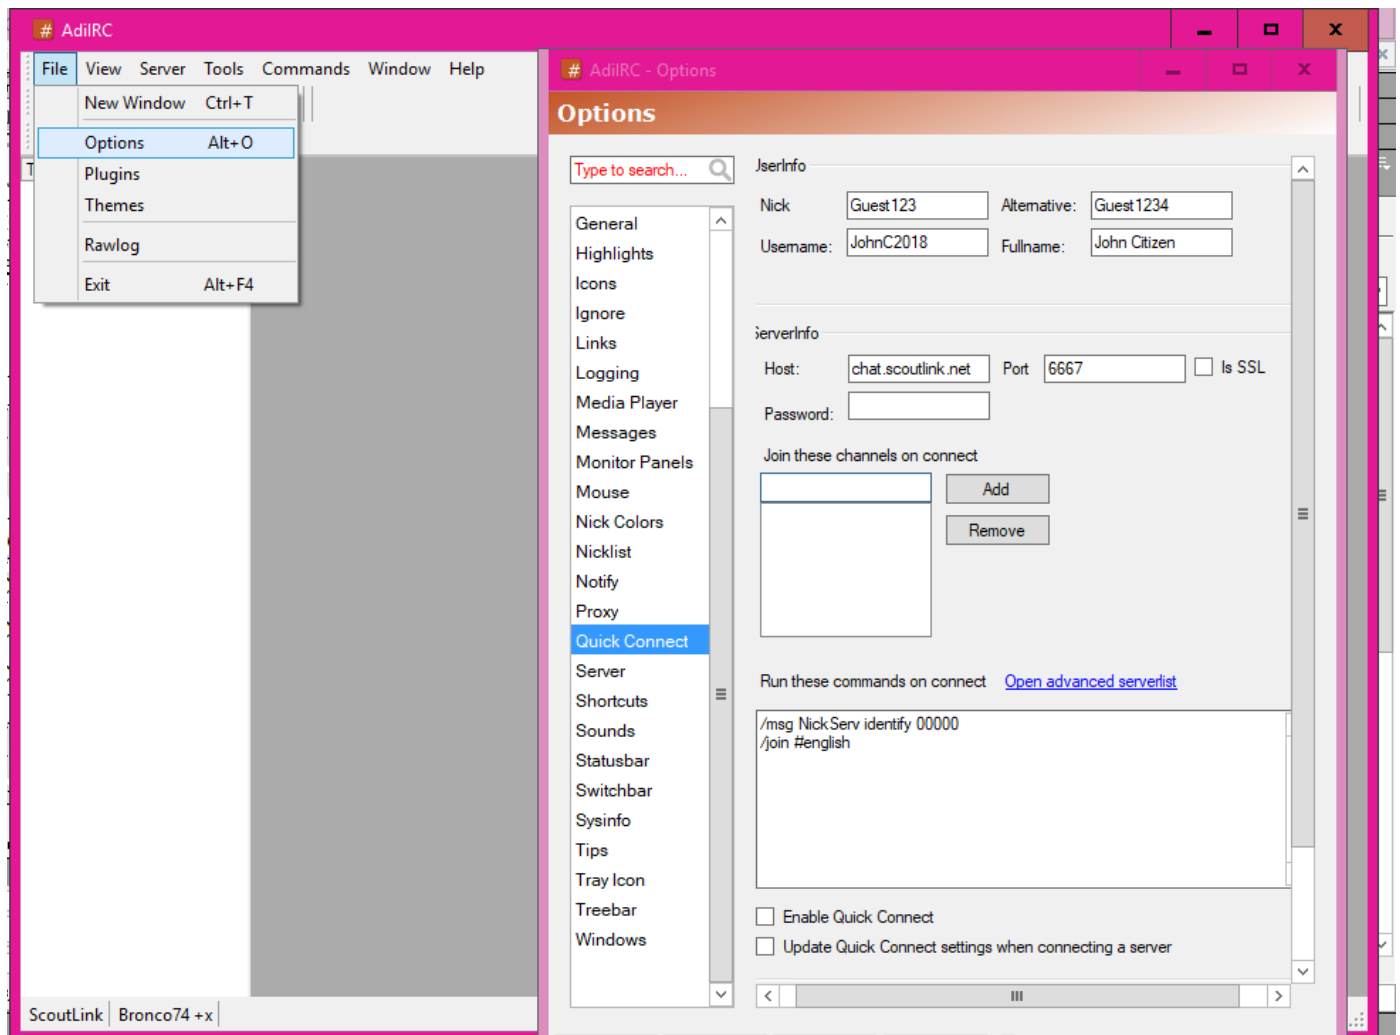

You Also need an Alternative Nick name eg "Guest1234"

You need a password - My password for this example is "00000"

You will also need an email address

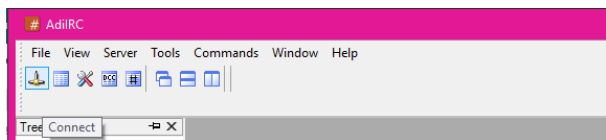

Once AdiiRC is Installed choose "File" then "Options" then go down to "Quick Connect"

Fill out as below using your Nicknames, Usernames

Once this is complete then Save.

Then choose the "Connect" icon under File.

Once Connected in the **TreeBar** window you will see "ScoutLink" → "Channel: 1" → "#English"

Choose "ScoutLink" then in the typing bar at the bottom write the following

```
/NickServ REGISTER password email
```

```
/NickServ REGISTER 00000 johncitizen@mail.com
```

Now you are Registered.....you can just open the program and connect from now on.
